MEMORANDUM FOR: Acting Chief, Development Projects Division

ATTENTION : Security Officer

SUBJECT : OXCART Clearance Policy

I have become gravely concerned about the number of OXCART clearances being granted to persons who, in my opinion, have no clear and immediate need for the information. I think it is necessary to state that for the indefinite future I wish to rule on all requests for OXCART clearances for other than industrial suppliers. I can assure you that all such requests will have to take the slow route up from the very bottom of my "In" box. I am particularly concerned to restrict the clearances granted to Government employees, and the rate of flow of these through my office will approach zero.

RICHARD M. BISSELL, JR.
Deputy Director
(Plans)
